HOW TO DETERMINE YOUR SHIPPING COSTS

1. Add the shipping weights of the items in your order (other side).
2. Find your shipping zone on the map (if you are shipping to Alaska, Hawaii, or Canada, call 1-800-248-8239 for information).
3. Use the Direct Shipping Charges Table below to find the correct weight being shipped and your shipping zone for your total shipping cost

NOTE: If the weight of your order is 200 pounds or greater, multiply the total weight being shipped by the correct rate per pound found on the last line of the Direct Shipping Charges table below.

UPS SHIPPING ZONES

HERE ARE SOME EXAMPLES:

Shipments weighing less than 200 lbs. Shipment to New York. Refer to map and the corresponding shipping zone chart. New York is in Zone 3. Add the weight of the following individual packages weighing 68 lbs. + 11 lbs. = 79 lbs. Zone 3 shipping cost = \$48.05.

Shipments weighing more than 200 lbs. Shipment to New York. Refer to map and the corresponding shipping zone chart. New York is in Zone 3. Add the weight of all packages to be shipped. See last row of Direct Shipping Charges table. Example: 215 lbs. x the rate per pound (\$0.49) = \$105.35 shipping cost.
